FOR IMMEDIATE RELEASE

South Coast Public Transport Survey

Regional Development Australia Adelaide Hills, Fleurieu & Kangaroo Island (RDA) with support of our local government partners, undertook a comprehensive public transport study of the Adelaide Hills and Fleurieu Peninsula in 2019 ([RDA Project Link](#)). The recommendations of that study have been used by RDA and other stakeholders to advocate with the state government for greater investment in the regions public transport.

RDA have contracted a consultant to prepare a report card on progress against those recommendations. We already know that some good progress has been made for the Adelaide Hills, however, there has been little action on the Fleurieu. For many reasons, including population density, visitation levels, and design of the current bus services, we see a great opportunity for improved public transport on the Fleurieu's South Coast (Victor Harbor to Goolwa).

To inform our continued advocacy work, we have launched a public survey to gather feedback from locals and visitors on public transport needs and preferred public transport options for the South Coast.

RDA welcomes promotion of the survey. Please find the below survey weblink and QR code (file also attached) for your promotion.

Cont'd over.....

An Initiative of
**Government of
South Australia**

Adelaide Hills Council • Mount Barker District Council • Alexandrina Council • City of Victor Harbor • Yankalilla District Council
Kangaroo Island Council
